#### **Safe Handling Instructions**

All our products are manufactured following HACCP procedures, this help to minimize risk of contamination of pathogens and other foreign materials.

We recommend the following safe handling instructions to avoid bacterial contamination or product deterioration:

- For fresh items, keep product refrigerated between 0° 4°C (32° 39°F)
- For frozen items, keep product frozen at -18°C (0°F) or below.
- Thaw under refrigerated conditions
- Keep raw salmon separate from other food.
- Cook it thoroughly or until the inner temperature reaches 63°C (145°F)
